Job For Software Developer

Dear Mr. DHRUV KIDECHA,

I am writing to apply for a recent job opening advertised on your website for the position of 'Software Developer'. The position and responsibilities seem exciting and matching to my interest areas and career goals.

->Bachelor of Science in Information Technology ([BscIT](#))

->Strong command in software engineering & programming principles across different platform

->Interest and knowledge of designing interfaces, testing and debugging codes

->Knowledge of Languages: C++, XML, HTML and Web Service

For more information, I have attached my cover letter and resume for your consideration.
